Training FOR THE REAL WORLD®

TRAINERS WITH REAL EXPERIENCE

Top-rate instruction starts with top-rate instructors. Our trainers have extensive military and law enforcement experience, and are completely versed in all aspects of the Simunition® training program.

REAL-WORLD SCENARIOS

The key to the course is its scenario focus. Half the time is spent in class covering technology, training methodology and scenario design. The final half of the course is spent performing the scenarios that were developed in class.

REAL WEAPONS

The instructor course allows participants to use their service weapons, modified with Simunition® conversion kits, in non-lethal, force-on-force scenarios. Conversion kits are available for the majority of law enforcement and military weapons, including most pistols, revolvers, shotguns, sub-machine guns and the complete M4/M16/AR-15 family of rifles and carbines.

REAL INFORMATION

Our course offers the only General Dynamics Authorized training class where you get the most complete and up-to-date information on the whole Simunition® training system comprised of the FX® marking munitions, the Simunition® weapon conversion kits and the Simunition® personal protective equipment, as well as safety information on all our reduced and full energy training rounds.

REALLY SAFE

You and your people take enough risks on the job – so why take chances during training? Because safety is our number one priority, all participants will learn how to safely run scenarios, establish a secure training perimeter and use all mandatory and optional protective equipment.
